Yellow Gold and Yellow Gems... A Bright Combination for 2006

Warm yellow gold and sunny yellow gems blend beautifully to form a strong fashion color for 2006. The combination of gold-on-gold or yellow-on-yellow is perfect for adding a warm and lively look to winter fashions.

This season, you'll see high-fashion yellow gold jewelry in a bright mirror shine as well as a soft satiny glow combined with a wide variety of summery yellow gems. These include lustrous citrine, yellow sapphire, topaz, amber, heliodore, and yellow chrysoberyl.

In addition, many of the newest gold jewelry designs are combining glittering yellow gemstones with the radiant glow of natural golden akoya cultured pearls.

Buttery yellow gold-on-gold jewelry is available now in elegant necklaces, bracelets, rings, pendants, and earrings to brighten any outfit.
